#### Research

- Employment and labour market

### **Resource Type**

- E-file
- Other: Research Report

### **Intended Audience**

- Policy makers
- Researchers
- Internationally educated professionals

### **Summary of content / Abstract**

This report argues that Canadian provincial governments need to take a closer look at the way they hire doctors, nurses and other health professionals from developing countries. It also looks at how other countries are handling the issue, examines the views of key players and outlines some first steps for Canada's provinces to begin the process of developing a code of practice or series of guidelines.
