SOCIAL WORK & COUNSELLING SERVICES

Women’s College Hospital is a teaching centre. The Family Practice Health Centre offers counselling service to patients and their families who require counselling, referral or education for a variety of concerns. Social workers and social work/counselling psychology students at the Family Practice Health Centre work from a client-centred, collaborative and anti-oppressive framework. We believe that clients are the experts in their own lives and we respect the client’s right to make well-informed decisions based on the client’s own set of skills, values, and strengths. Length of service is short-term. Practicum placements are usually 2 days/week starting in September.

Some of the issues that people meet with the counsellor about include the following:

- DEPRESSION
- ANXIETY

- PARENTING ISSUES
- VIOLENCE OR SAFETY ISSUES
- ADJUSTING TO A NEW DIAGNOSIS
