CIDE/CIDEC Steering Committee
The Centre (along with the Collaborative Specialization) is administered by a steering committee normally consisting of at least one core faculty member from each of the six participating home programs in the three CIDE affiliated departments, plus Student Association representative(s). Additional steering committee members are welcomed on a voluntary basis. The steering committee is chaired by the Director.

This committee meets at least once in each academic term, with additional meetings as needed. Members of the steering committee provide advice to the Director on new program directions and on the Director’s annual program reports. The steering committee, along with the Director, is responsible for changes to centre priorities, specialization program requirements and course offerings, and changes to program requirements and course offerings admissions decisions.

Curriculum, Teaching and Learning
- Bickmore, Kathy - BA, MA, PhD (Director) – CSTD program
